3	Object Report
4	Nov. 09 Inventory Report
5	Dec. 09 Sales Report

The WOW i5 Gateway add-on product will allow end users to view i5 spool files from the web with a single click. Advanced features also allow for conversion of spool file data into MS Excel and PDF formats. Spool files can be produced with any language or command. The WOW i5 Gateway Repository is used to register, view, and manage existing spool files. Advanced WOW security allows for spool files to be viewable only by authorized users.

- *Serve any i5 spool file*
- *Convert spool files to MS Excel*
- *Convert spool files to PDF files*
- *Create customer "self service" applications with ease*
- *Leverage RPG and Cobol Applications*
- *Browser User Interfaces*
